Professional Summary

I am a creative professional with experience in the healthcare industry, now building my career in UX/UI and Graphic Design. I have a strong interest in creating user-friendly and visually appealing designs. Skilled in Figma, Adobe XD, Photoshop, and Illustrator, I enjoy turning ideas into easy-to-use digital experiences and contribute to innovative design projects.

Education

Bachelor's Degree	2017-2020
Sri Krishna Adithya Arts & Science College (Computer Technology)	
Master's Degree	2020-2022
Sri Krishna Arts & Science College (Computer Technology)	

Work Experience

2022-2025

Senior Client Partner at Access Healthcare

- Drive client satisfaction, retention, and revenue growth through proactive engagement and value-driven partnerships.
- Develop and execute account plans, business reviews, and performance reports to track progress and ROI.
- Serve as a trusted advisor by offering insights, recommendations, and innovative strategies that align with client objectives.
- Act as the voice of the client within the organization, ensuring client needs are effectively represented in planning and execution.
- Collaborate with internal teams to ensure timely and high-quality project delivery.

Tools

- Figma
- Adobe Photoshop

- Adobe InDesign
- CorelDraw
- Blender
- Canva

Skills

- User Research
- Information Architecture
- Critical Thinking
- Task Flow
- Usability Thinking
- Interaction Design
- Wireframing
- Prototyping
- Design Thinking
- Empathy Mapping
- Competitor Analysis
- User Research
- Typography & Layout

Projects

AppliGo @ VinsupSkill Academy

2025

- Conduct user interviews, surveys, and usability tests to understand user needs and pain points.
- Create user personas, empathy maps, and journey maps to visualize the user experience.
- Structure the app’s content and navigation logically for easy access and flow.
- Develop high-fidelity mockups and interactive prototypes for all app screens.

CineGo @ VinsupSkill Academy

2025

- Design high-fidelity mockups and interactive prototypes based on UX wireframes.
- Design micro interactions. (hover effects, button states, animations)
- Structure the app’s content and navigation logically for easy access and flow.
- Prototype interactive flows to demonstrate how users move through the site.

NeuraPay @ VinsupSkill Academy (Internship Project)

2025

- Conduct user research to understand customer needs (e.g., fund transfers, bill payments, investments).
- Create personas for different user types.
- Design information architecture (IA) to make navigation simple and logical.
- Develop wireframes and low-fidelity prototypes for user flows.
- Conduct usability testing to validate flows before UI design and development.
- Design high-fidelity mockups and interactive prototypes.
- Define a design, system, buttons, and components.
- Review prototypes and conduct design audits for consistency and usability.

Soft Skills

- Creative Problem-Solving
- Clear Communication
- Attention to Detail
- Multitasking
- User Sensitivity
- Conflict resolution
- Decision Clarity
- Strategic Thinking

Languages

- English (Expert)
- Tamil (Expert)
- Hindi (Intermediate)
